RE: Recommendation

To The Trade Flooring ~

Recently, our church added on to our entryway, and it was decided that tile would be the best choice for part of the entry. I volunteered to lay the tile, got the design approved, and then set about to find the best price I could for the materials.

“To the Trade Flooring” was my choice! David, the sales representative who assisted me, was both helpful and prompt in attending to our needs. He found the products we desired and gave us the best price possible for them. His communication regarding price, delivery, payment, etc., was prompt and professional.

The flooring arrived on the date promised. You can see photos of the finished project below.

I would recommend “To the Trade Flooring” ([www.tothetradeflooring.com](http://www.tothetradeflooring.com)) to those wishing to find great tile prices and receive professional service.

Sincerely,

Shelley Bacon
